

CITROCASA®
JUICERS + ORANGES

FANTASTIC
THE NATURAL WAY OF TASTE *eco*

INDEPENDENCE AND SELF-RELIANCE WITH CITROCASA

Citrocasa brings an almost forgotten experience back into our world. Freshness and flavor is made even sweeter yet through self-sufficiency.

The new ECO appeals to everyone who desires independence and self-reliance with the proven Fantastic attributes. Whether it be in hotels, (organic) supermarkets, cafes, (beach) bars, the Fantastic ECO can be used anywhere, thanks to its manual gear mechanism.

BACK TO BASICS

THE NATURAL WAY OF TASTE

HANDMADE FRESHNESS AND FLAVOR

The Fantastic ECO can be installed anywhere.

DOUBLE COVER

The Double Cover is the partition between the Food-Zone and the Engine-Zone, and is easy to disassemble and clean in a normal dish washing machine, like all other components of the Food-Zone.

CROSS HOLDER

The Cross Holder fastens seven components together with only one latch, securely but simply - adding to safety, time saving, and cost saving.

SCS - SOFT CUTTING SYSTEM

The Soft-Cutting-System performs the actual cut of the fruit to an extreme precision, preventing any contamination of the juice with undesired bitterness from the peel.

MANUAL TRANSPORT SYSTEM

This assembly guarantees the utmost hygiene in the fruit strainer. All fruit remnants can pass only in one direction through the machine as they are removed in one fluid movement.

ADAPTABLE BASE PLATE

The base plate can be adjusted to suit the installation, whether it be placed on a tabletop or installed into a countertop or other base structure.

STAINLESS STEEL

All metallic components of Citrocasa Juicers are 100% Stainless Steel for hygiene, product safety, and durability.

Enjoy your fresh orange juice wherever you want -

because you can.

Oranges per minute
10 Orangen

Optimal fruit size
65-78 mm

Dimensions (H x B x T)
78 x 57.5 x 56 cm

Net Weight
56 kg

COMPACT

Small but powerful. The Fantastic ECO brings together all of the design and quality features of the Fantastic family with a high-grade manual gearbox. So small, so powerful - so fantastic!

INDEPENDENT

Anywhere and anytime, because being tied down is a thing of the past. The Fantastic ECO can be set up easily, anywhere in the world - it needs no electrical power at all.

HYGENIC

The quick and simple cleaning of all parts that come into contact with the orange assures the highest level of hygiene.

ECOLOGIC

Environmentally friendly, economical, and compact. Perfect for any location, indoor or outdoor, the Fantastic ECO is usable in nearly any environment.

MANUAL PRESSING

The Fantastic ECO brings together all of the design and quality features of the Fantastic family with a high-grade manual gearbox. The 18kg flywheel makes it so that the movement of the elements remains smooth and fluid, yet powerful. The ergonomically designed interaction with the mechanism protects against fatigue and injury.

CROSS HOLDER

Fast assembly and maximum operational safety. The patented Cross Holder secures seven components into position with only one quick release latch. The press and cutting tools can be quickly removed for cleaning or replacement.

DOUBLE COVER

The Double Cover is the key of the 2-Zone-Technology. Through the easy disassembly of all components, including the machine's rear partition (Double Cover), it's simple to access every component where bacteria and mold might grow, thereby ensuring absolute hygiene and safety.

2-ZONE-TECHNOLOGY

The 2-Zone-Technology consists of one Engine-Zone and one Food-Zone, allowing simple access to all parts that come into contact with food products for quick and easy cleaning. Maximum time saving, top hygiene, and safety guaranteed.

OPTIONAL ACCESSORIES

To provide the best solutions for any location, Citrocasa offers a wide range of accessories. From adapting to pressing smaller fruit such as limes, to allowing for the attractive display of glasses and bottles - Citrocasa ensures optimal presentation at the POS.

Fruit Supply Basket

With the optional fruit basket you and your guests have the fruit always within reach, without having to use additional countertop space.

Capacity:
approximately 13kg.

Straight Peel Container

For average quantities of orange peel, the larger straight peel container is the perfect solution for the Citrocasa Fantastic ECO.

Ideal for up to 30 portions x 0.25 l / day.

Pedestal / Distance Adapter

I. Distance Adapter
1 Liter - drip cup, deep drawn (3 cm deep) for bottles up to 22 cm tall.

II. Small pedestal
(4 cm) for glasses up to 15 cm tall.

III. Large pedestal
(8 cm) for glasses up to 11 cm tall.

Countertop installation kit

Take advantage of the full capacity of the press while maintaining the highest ease of use. For more than 30 portions of 0.25 liters.

Tray Slide

Ideal for self serve and cafeteria settings

Stainless Steel Cabinet

The stainless steel cabinet makes your Citrocasa Fantastic ECO into the perfect solution when you need mobility and want to exploit your juicer's pressing capacity to the fullest. For more than 30 portions x 0.25 l / day.

Glass Display

Available with 2 or 3 shelves. Includes safety glass plates and countertop stand.

Bottle Dispenser

With the optional bottle dispenser, empty bottles are right on hand. For 0.25L, 0.33L, 0.5L, and 1L bottles

Lemon Kit

Allows the press to process smaller fruit sizes from 50-65mm

Leaf - Inlays

Individuality for everyone! You can get the inlays in different colours and materials.
